The chart on the back of this card is to assist you in determining the amount of your annual giving. The biblical standard is to give 10% of your income to the church. How you determine your income is up to you. You can base it on your gross income, your income after taxes or use some other basis that you feel is faithful to God's will. You also may not be able to give 10% this year but you can make a commitment to strive for this goal over the next few years. These guidelines can help you in your effort.
